## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 76 (page 5, line 28); 110 and 72d (page 7, lines 9 and 11, respectively). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3611

Claim 1, 4 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Reise.

Reise discloses a trailer stabilizing device (1) having an engaged position that operably engages a trailer through linkage (33 - through the hitch bars 13 that are directly attached to 33, as shown in Figure 2), a disengaged position in which a dampening force is not substantially applied to the trailer (i.e., the non-pressurized state of 1), and a regulator for commanding the stabilizing device between the engaged and disengaged positions (the brake circuit shown in Figure 4).

### ***Allowable Subject Matter***

Claims 2, 3 and 6-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure because it relates to dampening devices between trailers and vehicles towing trailers.
